⁴Brad must explain the material to his student and his Tourette will disturb it. It is like we have to run, but we do not have any legs. Here, Cohen faced internal and external conflicts. How Cohen faced his problem inspire us to never give up reaching our desire job.

B. Background Of Problem

We as social human have to use language to communication . language is one of tool establish relationship each other people in social life. Everyone believes about language are universal, it means people will express their emotion, feeling, sign and the other in communication through language.

Communicating with other people is our daily routine. In communicating, of course, we use language in the delivery. Language is formed by rules and patterns that must not be violated so as not to cause interference with the communication that occurs. The rules, rules and patterns that are formed include sound system, form and sentence structures. In order for communication to run smoothly, the receiver and sender of the language must master the language. Language is a system of arbitrary sound symbols produced by human speech tools and used by the community for communication, cooperation and self identification.

The language product of communications has several forms, such as for requesting something, giving information, entertaining, and others. By language, people are able to socialize and to communicate one another for whatever they do.⁵ It means that language is important because with language we can communicate and discuss with other people.

According to Meyerohoff “language style also describes the personality, mindset, condition of human. The

⁵ Dinda Dwi Maharani, thesis, “a Sociolinguistic analysis of Language Style in Wild Child Movie”, *E-Journal of English Language*, 2019, repository.umnat.ac.id

condition of human can created human's language style".⁶ For example every formal language will be used when a president delivers a speech in front of the citizen. It happens because the context is forml , and has special purpose to deliver such kind of information.

The language that use by many people have different style in communication. Language style will influence by interaction in social life. It will conclude that language has big impact to human in understanding communication. Everyone use language style depend on place, different interlocutors situation and condition their communication. In language, every word have active role in sentences. It will make verb which has active role in understanding meaning. Language style will influence several factor, they are age, educational background, social status, and the others.

The study of language that related to society is called sociolinguistic which consist of two words, *socio* means social or related to society and *linguistic* means the science of language.

The role of language is to transfer idea or information from speaker to hearer through communication. according to martin joos, language has five styles. He recognized five different language style namely : frozen style, formal style, consultative style, casual style, and intimate style.

As we know that language style based on Martin Joos include five styles, frozen style, formal style, consultative style, casual style, and intimate style. To understand at all we should learn the definition, how the example, and how apply in the learning process, and we should know the different each other.

For teaching and learning process language style very important to learn for students because when interacting in different environments that have to adjust their language style. Especially in the world of education and during the learning process in class, so that there are no misunderstanding between fellow students and with the teacher. Chaika states that communication occurs transformation message from the speaker

For the first is the researcher found four language style from five language style. The second is from four type, the researcher found intimate style is the dominant type on the movie and frozen style is not found.by details as follows:formal style 3 data, consultative style 2 data, casual style 11 data, intimate style 23 data .¹¹

H. Research Method

1.Research Design

Researcher used descriptive qualitative research design in this research for analyze the subject,because researcher found the language style in Front of The Class movie. Qualitative research is interpretative approach that cause get precise that means and behaviour experience in social phenomena.¹²The qualitative research is social inquiry that focuses a way to interpret of the humans and recognize approximately their experience and the word that they use in life. Based on creswell qualitative research is in shape to investigate problem that we do now no longer realize approximately the variables and want to discover the research.¹³Qualitative research is a research which produces about descriptive data in oral or written form subject that have goal of an individual understanding and complete about the background. Researcher used descriptive method to describe

about language style in Front of The Class Movie,because it described phenomenon and characteristic language style that use in this movie. Descriptive method match that using in this research because help written to described language style in Front of The Class Movie.

2.Data Collecting Technique

Based on Donald Ari there are 3 manners that use in qualitative research to collect data. They are interviewing,obsevation, and document or artifact analysis.¹⁴in this research reseracher collected in form of written document to understand about phenomenon in research. Documentation used in logical research to collect data of the research.In this research, researcher utilized subtitle or transcript Front of The Class Movie as written artifact that used. The movie as audio visual material, it used as data collection in this research. Researcher collected the data utterances of main character Front of the Class Movie when they speak each other.

There are several steps that used by researcher to collecting data using document or artifact document:

1. Researcher downloaded Front of the Class Movie
2. Researcher seacrhed script Front of the Class Movie
3. Researcher watched several time Front of the Class Movie
4. Researcher read script when she watch Front of the Class Movie to match and check
5. Researcher re-watched Front of the Class movie to get better understanding movie
6. Researcher identified the language style by reading script or subtitle
7. Researcher clasified data based on types of language style.

3.Research Instrument

In every qualitative research,the researcher spent in each research degrees allows the researcher realize all the

¹⁴ .Donald Ari,*Introduction to Research in Education Eight Edition*(Belmont:Wadsworth,2010),p.431

collected data in the research. Therefore, qualitative research has a whole lot time within side in the research. It means that the researcher has a whole lot time and focus on the research to get much information that analysis. The key instrument of this research is researcher itself.¹⁵ Researcher spent a great deal of her time to reading, watching, and understanding related with the theory and concept before researcher collecting and analyzing the data. Researcher be the instrument and collector data at the same time. The researcher is main instrument, so it is impossible to investigate directly without interpretation from the researcher self.

4.Data Analysis

After collecting data from this research, researcher analyzed the data that use several steps below:

In the last step, researcher found the conclusion from the data analisys about language style that related with education use in Front of the Class Movie.

I. Systematic Discussion

The researcher discuss the research into structure below:

Chapter I presents the introduction, which consist of title affirmation, background of the problem, identification and limitation of the problem, formulation of the problem, objective of research, the significant of research, relevamce studies, and research method.

Chapter II presents the theories of sociolinguistic, language style and types pf language style, function of language and movie.

Chapter III presents description of object research in general and presentation research fact and data analysis of language style in “Front of the Class” movie.

Chapter VI presents the result of the research, how many type that used in Front of The Class, and what the dominant type that used in Front of The Class Movie.

Chapter V presents conclusion of the research, and suggestion for the research to make it better.

J. Research Usage in Education

This is one kind of important things on this research, the reseacher expects the finding of the research used as follow:

1. Theoretically

The result from this research to gave some significant contribution on the readers about language style knowledge in Front of the Class movie and can be references in sociolinguistics especially for language style. However, the researcher hopes that the readers have quite understand about how to use language style in the other movie or text.

c. For the Other Researchers

The result of this research can gave motivation for the next research to find language style in another things. And the next researcher can used the research as the reference about language style in the movie .

H. Trustworthiness of Data

Researchers should explain the steps they take in their research to check the accuracy and credibility of their research results. Gibbs says, that qualitative validation is that the researcher checks the accuracy of the result using certain steps.¹⁶ The validity test qualitative research that discuss about literature such as validity, such as trustworthiness, authenticity, and credibility. In this research, the researcher used credibility to check the validity of the data.

Validity towards the consequence of subjective exploration, for example, augmentation of perceptions, increase persistence, triangulation, part check. In this research, the researcher utilized triangulation. Wiersma states. Triangulation is characterized as really looking at information from different sources in different ways.¹⁷ There are four kinds of triangulation, as follow:

1. Triangulation Data Source

Interview data from various sources are mixed in such a way as to produce reliable/ valid data.

2. Methodological Triangulation

Data results from observations, interviews and documentation in such way as to produce reliable/ valid data

3. Investigator Triangulation

Involving more than one independent researcher who is related to this study.

4. Theoretical Triangulation

The final result of qualitative research is an information formulation or thesis statement.¹⁸

CHAPTER II

LITERATURE REVIEW

In this chapter to describe about general concept of sociolinguistic, language style, and synopsis of Front of The Class Movie .

A. Sociolinguistic

According to Yule in Dinda Dwi Maharani's thesis ,sociolinguistic is a part of sociolinguistic study which focuses of language which is dealing with social and culture phenomena in one society. It usually explores the field of language, society, and things which are related to social sciences, especially phsychology, anthropology, and sociology. The idea proposed by Yule is also in line with Trudgill. He states tha the study of sociolinguistic is related to cultural phenomena so that it can affect the way people speak or talk since it is determined by the social context .¹⁹ It's mean that focus of study on sociolinguistics is society and social life.

Coulmas states in wardhaugh in thesis Hanifa Pascarina says that sociolinguistics investigates how social structures influence the way people talk and how language varietis and patterns of use correlate with social attribiutes such as class, and age. It means that sociolinguistics is the have a look at of the manner humans use language is social interactions. It is obvious how that the position of sociolinguistics is to convey a language because it capabilities withinside the society,or in different phrase to convey a language as a way of communique withinside the society.²⁰

Chaika claim in thesis Fika Nur Anggita Says that sociolinguistics is study in which people use language in social interactions. Moreover, she also propose the idea that language can

maintain every social institution in human life. People use language for different purpose it can be use “to carry on” love,”to “carry out” hate and reveal their identity,characterc, and background without realizing that they are actually doing.²¹

Sociolinguistics can also be defined as a study that focuses on the use of language in social interactions in society. People use language in different conditions according to the answers they are interacting with.

From several definition above, it can be include that sociolinguistics is study between language and society. It can happen in interaction social and sociolinguistic in society will find variation of language, variation of dialect and different character every speaker.

B. Language Style

Language is not only media to communicate each other but it is important to establishing and maintaining relationship with the other people. In language, there is language style as knowledge in linguistics. According to Octaviana Arini Haqqo in thesis from Chaika states that language style is the way people use the language in communication, it can be written or oral language.language style actually refers to the selection of linguistics form to convey social or artistic effect. Style also acts as a set of instruction. We manipulate other with style, even we are manipulated ourselves whether consciously or unconsciously. In doing communication people usually use formal or informal language which depend on the situation they are communicating with others. Style also tells listener to take what is being said seriously,ironically,humorously or in some other ways.²²

From the statement above, we recognize that style is the way how human beings bring thoughts of message. It is simpler to get hold of thoughts or message if we have recognized the

situation and fashion utilized by the speaker or creator. It means that how the way of speaker or creator promises his or her thoughts or message in formal or informal occasion: seriously, ironically, humorously or in some other ways.

According to Keraf in Thesis Iren Yswara Sipahutar that language style is a way to express the idea with special language show the writer's show, spirit and concert. Good language must have 4 elements, thus are: honestly, respect, good manner, and the last is interest.²³

Bolinger states "style involves the choice of form without a change of message its includes the motives and its effect". This statement clarify that the style will used influence the meaning and it is used for certain reason due to the situation.²⁴

Based on diction, language style refers back to the trouble of which words is the maximum suitable to be installed positive function in a sentence in addition to both its miles appropiate or now no longer to apply the ones words if they may be visible from langauge utilization in society. In any others words, languange style primarily based totally on diction right here is ready the accuracy and suitability of language utulization in positive situations. in standardized language, it could be outstanding into:formal language style,casual language style, and colloquial language style. The distinction among formal and casual language style is relative. Between those severe patterns, there are numerous variations which nonetheless comprise the factors of the preceding style, however additionally they comprise the factors of the subsequent style. Thus, the variations of the factors in each patters are very tough to be limited.²⁵

According several expert above, writer conclude definition language style as the choice of the word that use when communication in one condition. language style is one of the

important knowledge in sociolinguistics. People can express their idea with language style.

C. Type of Language Style

Martin joos clasification of language style based on formality. There five main language style:frozen style,formal style,consultative style,casual style, and intimate style.²⁶

1.Frozen Style

This style more elaborated than the other styles.the sequences of the sentence are complicatedly related this style requires high skill and almost used exclusively by specialist, profesionnal, orator, lawyers.²⁷

The characteristics of this style are the use of maintained and unchanged sentence structure, the use of long sentence construction, and the use of exaggerated intonation, used in the situation that has a symbolic value.

Example:

Stated in the Introduction Fundamental constitution 1945, “actually an independence is the right for every nation, and

because of that the colonization in the earth has to be abolished because it does not conform with the humanity and justice.”

2.Formal Style

Formal style is defined as the style of language that use for important or serious situation. Formal style is usually a single topicoriented and it is related to the fact, that formalwriting

is technical. Formal style used in school by teacher, students, lecturer.²⁸

Formal style has three characteristic, they are namely having a single topic. Formal style usually use in speech, actually when speaker speech their just talk about one topic like just education, economic, or the others.

Numbertwo,usinga sentence structure that shows less intimacy between hearer and speaker. Speaker will

convey about the topic with general way. So, all of listener will get the point from speaker. The last, speaker is using standard form. Speaker will use standard form to formalstyle, because formal styles have to general nature. So, all of listeners will be easy to understand about the topic from speaker.

Example:

- a.If mr kevin would be so kind ask to let me finish my words.
- b.Well, it is rather difficult to say at this point.
- c.I would like to introduce my self to you

3.Casual Style

Casual style is a style that is used for the conversation is relaxed or normal situation that is appropriate to the conversation with our friends or sometimes members of a family, such as outside the classroom, when the students have a chat.

casual style is characterized by the use of the first name or even nickname rather than a little name and last name in addressing one another. The pronunciation is rapid and often slurred, besides that the use of slang. This is a prime indication of in- group relationship.

Another characteristic feature of casual speech is the omissions of unstressed words, particularly at the beginning of sentences. There most involved are articles, pronouns, auxiliaries, and be. “blah, blah, blah”, “OMG”. “what’s up?”, “Need help?”. Such expressions are

²⁸ .Ibid.p.15

a highly diagnostic feature of the casual style; they will generally be interpreted as signaling informality.

Example:

- a.give me some
- b.Would you give me some money ?
- c.Hello guys how are you?

4.Consultative Style

Consultative style is typically dialogue, though formal enough that words are chosen with some business, translation, doctor-patient conversation, a meeting with the school principal, or any first meeting between strangers.

The typically of consultative style speech is used between two persons. While one speaking at intervals the others give short responses ,mostly drawn from a small inventory standard signals. There are basic part of the system, among them are “yes, no, huh, mm, that’s right”

There are several characteristic of consultative styles such as tendency of average speed. Speaker will talk with average speed with the other people or for listeners, because it is semi-formal situation. People can easily understand and enjoy in this situation. Second, the sentence tends to be shorter. Speaker will use simple sentence, that easy to understand to listeners. Third, tend to be spontaneous. Speaker usually does not prepare about their speech or their want to talk with the others people. Speaker will spontaneous when talk each other.

Consultative style usually in activities every days with many people. Both of participants active in that communication, the other speaker will give short response like yes, no, that’s right, uhhu..and the others.

Example

- a.excuse me, I think its really important for me to add about the topic that we discuss.
- b.actually, we have the same views about this problem.so,why don't you join with us ?

5.Intimate Style

Intimate style is a completely private language developed within families, lovers and close friends. The intimate labels are: dear,darling,honey and even mom, dad, and other nicknames might use in this situation.²⁹

The word that generally signal intimacy such as, dear, darling, and even honey might be used in this situation. On the other names, nicknames might regularly prove embarrassing to hearer as well as speakers outsideof intimate situations. Furthermore,

intimate language is also characterized byellipsis, deletion, rapid, slurred,pronunciation, non-verbalcommunication, and private code characteristics. It is often unintelligible outside the smallest social units.

Example:

- a. Cornelius : Hey darling, how are you?
- Lisa : Oh baby, kiss me!
- b. What is it,honey? A what,hon?
- c. Damn hot a hot

In addition another expert, classified of language style.Kerraf calssification of language style is about general types, thoose are:

1. Formal Style
