>> Please find enclosed my manuscript "AReciprocal Teaching and Certainly of Response Index Learning Model Impact of Mastery Mathematics on Curriculum 2013" which we request you to consider for publication in Perspectives of Science and Education International Scientific Electronic Journal.

>>

>> In mathematics, the concept of mathematical mastery is essential. However, students' conceptual mastery of mathematics in curriculum 2013 (K-13) remains deficient. As a result, teachers must emphasize mathematical mastery in their instruction. Learning mathematics in a classroom, on the other hand, continues to face a number of challenges, including students' perceptions that mathematics is difficult and uninteresting.

>>

>> This method used is a queasy experiment using a nonequivalent control group design. In both the pretest and post-tests, essay questions were used with the angles and triangles material. Cluster random sampling was used in this study to select participants at Secondary School Darul 'Amal of Metro, Lampung, Indonesia, consisting of experimental class I (CRI learning model) and experimental class II (RT learning model). A t-test was used to test the hypothesis using statistical analysis SPSS software 25 and effect size to perform the effectiveness of the learning model.

>>

>> The CRI learning model and the RT learning model differ in terms of mathematical mastery. The Effect Size test result was 0.88 in the high category. Based on the results, the CRI model has a greater impact

Dear Prof Suherman!  
The bank found the payment today.  
Thank you for your patience!  
We inform you that your article has been accepted for publication in issue 4. It will be out at the end of August.

Понедельник, 30 мая 2022, 8:21 +03:00 от suherman@edu.u-szeged.hu:

Dear Editor,

Could I ask for the progress of payment and the journal?. Could you give me the information about the payment?

To be honest, we need the publication of my journal as soon as possible, if possible in this month are appreciate it for you. Even though the payment hasn't arrived yet. I believe that the payment will be coming since I have been transferred in the middle of April, then was modified in the middle of June as your mentioned. Hopefully will be better.

Could I request this issue? Could you publish our article while we wait for the publication fee to arrive? I'm sure this will be difficult for you, but I also appreciate your efforts to wait for the publication fee.

Thank you for your kind help and my consideration.

Warmest regards, Suherman
