Dear Moh Bahrudin,

We have reached a decision regarding your submission to Journal of Environmental Management and Tourism, " Halal Tourism Governance Based on the Fatwa of the National Sharia Council MUI No. 108 on Tourism Improvement ".

Our decision is: "Resubmit for review"

Please see the comments of the reviewers given below and revise your manuscript accordingly. Please also address each of the reviewer's comments point by point in a cover letter upon resubmission. Proofreading whole paper and remove spelling and grammar mistakes is necessary. Make sure to Proof-edited by a native English language specialist. Please revise your manuscript in 10 days and upload it through the online management system of the journal and please confirm your recipient of this message..

Kind regards!

PhD Professor Nicola-Gavrila Laura

Collaborator for editing and publishing processes for ASERS Publishing House
on behalf of Editorial team of Journal of Environmental Management and Tourism

Abstract

This study aims to determine the governance of halal tourism in Lampung based on the Fatwa of the National Sharia Council (DSN) of the Indonesian Ulema Council (MUI) No 108/DSN-MUI/X/2016 concerning Tourism Improvement. The research method uses an empirical qualitative approach, as well as legal and doctrinal approaches. Data collection methods include observation, interviews, and literature study. The results of the analysis reveal two things. First, the management of halal tourism based on the DSN-MUI Fatwa consists of 11 (eleven) general provisions and 15 (fifteen) definitions. Four objects are the focus of general provisions, namely tourism, sharia tourism, tourism, and sharia tourist destinations. There are six subjects, namely tourists, sharia travel agencies, tour guides, tourism entrepreneurs, and

SCOPE

SJR

The SJR is a size-independent prestige indicator that ranks journals by their 'average prestige per article'. It is based on the idea that 'all citations are not created equal'. SJR is a measure of scientific influence of journals that accounts for both the number of citations received by a journal and the importance or prestige of the journals where such citations come from. It measures the scientific influence of the average article in a journal, it assesses how central to the global

Total Documents

Evolution of the number of published documents. All types of documents are considered, including citable and non citable documents.

Year	Documents
2013	8
2014	13
2015	25
2016	71

Total Cites **Self-Cites**

Total Cites	2013	0
Total Cites	2014	4
Total Cites	2015	14
Total Cites	2016	42
Total Cites	2017	68
Total Cites	2018	215
Total Cites	2019	580
Total Cites	2020	684
Total Cites	2021	595

Citations per document

This indicator counts the number of citations received by documents from a journal and divides them by the total number of documents published in that journal. The chart shows the evolution of the average number of times documents published in a journal in the past two, three and four years have been cited in the current year. The two years line is equivalent to journal impact factor™ (Thomson Reuters) metric.

External Cites per Doc **Cites per Doc**

Evolution of the number of total citation per document and external citation per document (i.e. journal self-citations removed) received by a journal's published documents during the three previous years. External citations are calculated by subtracting the number of self-citations from the total number of citations received by the journal's documents.

% International Collaboration

International Collaboration accounts for the articles that have been produced by researchers from several countries. The chart shows the ratio of a journal's documents signed by researchers from more than one country, that is including more than one country address.

Year	International Collaboration
2013	0.00
2014	0.00
2015	0.00
2016	0.00

Citable documents **Non-citable documents**

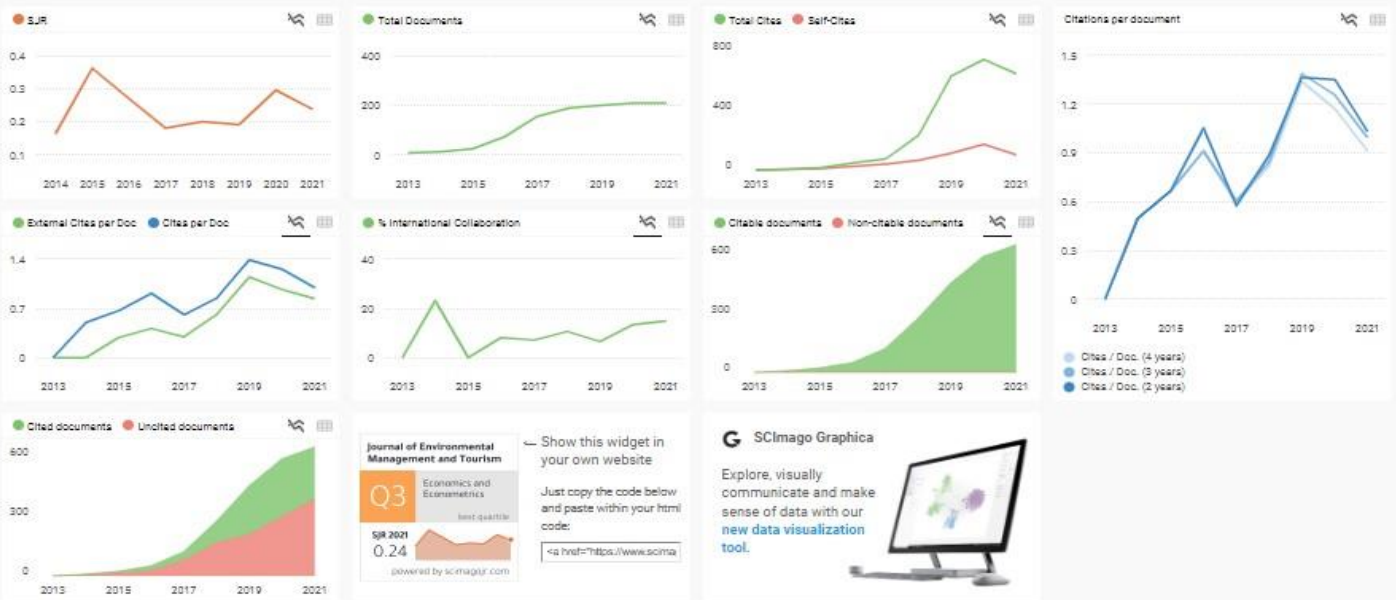

Not every article in a journal is considered primary research and therefore 'citable', this chart shows the ratio of a journal's articles including substantial research (research articles, conference papers and reviews) in three year windows vs. those documents other than research articles, reviews and conference papers.

Documents	Year	Value
	2013	0.00
	2014	0.00
	2015	0.00
	2016	0.00
